

Pumps & Pump Systems Since 2005

Oil, Gas, and Biofuel Pumps & Systems

Pumping Applications

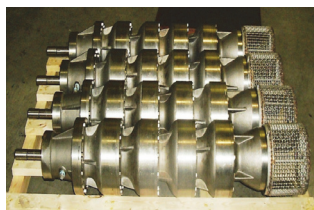

JeffPro Fluid Solutions, through our quality manufacturers, can offer many solutions for **Oil, Gas, and Biofuel Pump Applications**, including: transfer of heavy crude oil / bunker oil / waste oil / bitumen, drilling mud,

SSP (Alfa Laval) Rotary Lobe P.D. Process Pumps

gasoline / diesel & biodiesel / jet fuel, solvents, sludge and slurries, chemicals and refrigerants, heat transfer fluids, fire protection (fire water & foam), general water and wastewater, and others.

We represent well known manufacturers Patterson Pump Company and AMT Pumps (Gorman-Rupp), Hydroflo Pumps Fluid Solutions (A TACO Group Company), Crane Pumps & Systems, Grundfos, FPI Pumps Inc.(Ruthman), SSP (Alfa Laval), and others, for general water and wastewater, fire protection, and process fluids pumping.

SS Vertical Turbine Sump Pumps (Hydroflo)

Fixed and Portable pumps are available.

Pump Types

- End Suction Centrifugal
- Split Case Centrifugal
- Self Priming Centrifugal
- Submersible Centrifugal
- Submersible Turbine
- Submersible Axial Flow
- Vertical Immersion
- Vertical Turbine
- Vertical Axial Flow
- Vertical Mixed Flow
- cUL / FM Listed Fire Pumps
- P.D. Pumps (Lobe / Disc / Vane / Gear / Diaphragm / Peristaltic)
- Disc Rotor
- Packaged Systems (Modules)

Packaged Pumping Systems (Modules)

JeffPro Fluid Solutions can provide packaged pump systems for dewatering, reclaim-service water, water pressure boosting, sewage, fire-foam systems, and other applications.

Above—Turn-Key Fire-Foam Pump System (Patterson)
Left—Portable Axial Flow Dewatering Pump Package (FPI Pumps)
